PROFESSIONAL SUMMARY

Systems & Computing Engineering student focused on security engineering, algorithms, and high-impact problem solving. Known for clear mentorship, disciplined execution, and a strong commitment to quality and integrity.

EDUCATION

Systems and Computing Engineer — Bachelor of Science <i>Universidad de Los Andes</i>	2022 – 2026 Bogotá, Colombia
• GPA: 4.57/5.00 • Relevant Coursework: Offensive Cybersecurity, Network Defense & Cybersecurity, Cloud Security, Modern Topics in Cryptography, Computer Networks • Selected ICPC Team Member — Competed at the national and regional levels • Research FLAG Lab Member — Post-Quantum Cryptography & Quantum Computing • Selected Table Tennis Team Member — Competed at the national level	

EXPERIENCE

Teaching Assistant — Computer Science & IT <i>Universidad de Los Andes</i>	2023 – 2025 Bogotá, Colombia
• Provided academic support across Introduction to Programming, Language Theory, and IT in Organizations • Supported 250+ students, earning a 90% average TA rating • Produced reference solutions for 14 Python programming labs through review and rework	

SKILLS

Programming Languages C++, Python, Java, TypeScript	Core Computer Science Algorithms, Data Structures, Software Design, Computer Networks, Cryptography
Security & Systems Engineering Penetration Testing (PTES), OSINT, Linux, Wireshark, OpenVAS, Nmap, Hashcat	Frameworks & Platforms AWS, GCP, Docker, VMware, Git, React, NestJS, Power BI
Spoken Languages • English (Full professional proficiency — CEFR: C1) • Spanish (Native)	

HONORS & AWARDS

Qiskit Fall Fest Hackathon — Universidad de los Andes (IBM-supported) • 2nd Place — Quantum computing challenge using Grover’s Algorithm (2025)
International Collegiate Programming Contest (ICPC) • 15th Place — South America North Regional (2025) out of 57 teams • Best Team from Universidad de los Andes (2025) — National & Regional competitions • Competed in ICPC Colombia and South America North Regionals (2024–2025), demonstrating sustained improvement in algorithmic problem solving and collaborative performance under pressure

CERTIFICATIONS

NVIDIA Deep Learning Institute — Fundamentals of Deep Learning 	2024
